This is it – Time to Vote!

Hopefully you have already voted. My wife and I voted earlier this week. That's a big change for us. Admittedly, I along with most Republicans have been reluctant to take advantage of the Election "Season" that has been imposed on us and have, instead, remained committed to the idea that there should just be Election "Day" as to how the state and country should vote. That adherence to the old rules has cost us. Democrats have taken advantage of voting "season" for years and they haven't lost a statewide race since 2006. This year, early voting numbers in the state and nationwide indicate Republicans may be rapidly catching up.

While there seems to be a movement quietly building to get our country back on the right track, there are reports in recent weeks that should concern us, reports such as this:

COMMENTARY

41M Evangelical Christians May Not Vote in This Election. Here's Why They Should Reconsider.

Surely if true, that's dire news. We cannot afford to have anyone sitting out this election, especially Christians. I have a link in this newsletter to a broadcast that Paul Harvey did in 1965. Please listen to it and recognize that evil is on the march in our midst.

If the government was created
to protect our liberties
why do we have to fight
with the government
to keep them?
